EXPERIENCE

INSPIRE AI, Bengaluru — DATA SCIENCE

(JUL 2025 - AUG 2025)

LINK: [DATA SCIENCE](#)

During my internship in Data Science, I worked on collecting, cleaning, and analyzing large datasets using Python and SQL to uncover meaningful patterns and insights. I developed and evaluated machine learning models for predictive analytics, utilizing algorithms such as regression and classification to solve real-world business problems. Additionally, I created interactive dashboards and visualizations using tools like Power BI and Matplotlib to effectively communicate findings to stakeholders. This experience enhanced my technical skills in data preprocessing, model development, and data visualization, while also strengthening my ability to translate complex data insights into actionable business recommendations.

INSPIRE AI, Bengaluru — FULL STACK WEB DEVELOPMENT

(JUL 2025 - AUG 2025)

LINK: [FULLSTACK](#)

During this mini internship, I gained practical experience in developing responsive and dynamic web applications using front-end technologies like HTML, CSS, JavaScript, and React. I also worked with backend frameworks such as Node.js and Express to build RESTful APIs and manage data using databases like MySQL and MongoDB. This experience enhanced my understanding of the complete development lifecycle, from user interface design to server-side logic and database integration, while improving my skills in coding, debugging, and deployment.
